DETAILED ACTION

Drawings

1. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they do not include the following reference sign(s) mentioned in the description: On page 6 lines 4-5, items "B", "L", and "H". Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Specification

2. The disclosure is objected to because of the following informalities: On page 6, paragraph 2, discloses that "L" is the length and in the personal interview of 10-4-07 it was shown that "L" extends along direction A in Figure 1. However, paragraph 3 discloses "As represented in Fig. 3, the two leg lengths". The peeling direction A is not shown in Figure 3, so the length of the legs would not be shown as well. It is assumed the phrase should be replaced with "As represented in Fig. 3, the two leg heights" since it is the height that is shown along with the width in Figure 3.

Appropriate correction is required.

Claim Objections

3. Claim 35 is objected to because of the following informalities: On lines 7-8, the phrase "and wherein the distance between the lateral gripping surfaces at the peeling blade is larger than a length and a height" should be replaced with "and wherein the distance between the lateral gripping surfaces at the peeling blade is larger than a height". The phrase before this phrase states the distance between the lateral gripping surfaces larger than the peeler in the peeling direction which is the same as the length making the phrase at issue redundant.

Appropriate correction is required.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

5. Claims 35-43, 47, 49, 51, and 52 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The phrase "the length in the peeling direction of the vegetable peeler is larger than the height of the vegetable peeler" is new matter. The specification does not disclose a comparison between the length and the height and does not disclose that the Figures are drawn to scale. Therefore, this phrase is new matter.

6. It is to be noted that claims 35-43, 47, 49, 51, and 52 have not been rejected over prior art. It may or may not be readable over the prior art but cannot be determined at this time in view of the issues under 35 USC § 112.

Response to Arguments

7. Applicant's arguments with respect to claims 35-43, 47, 49, 51, and 52 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Heffner and Tagou.

9. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
